Why modernize

An outdated site costs you patients.

75% of visitors judge a practice's credibility from its website. If yours loads slow, breaks on mobile, or looks like 2012, new patients keep scrolling.

TODAY

The slow, dated site

- ✗ Not mobile responsive — breaks on phones
- ✗ Missing HTTPS — browsers show "Not Secure"
- ✗ Loads slowly (over 4 seconds)
- ✗ Looks like a 2012 template
- ✗ Contact form buried or broken
- ✗ No clear call-to-action

AFTER 7 DAYS

The modern, fast site

- ✓ Mobile-first design — perfect on any screen
- ✓ HTTPS, green padlock, full security
- ✓ Loads in under 2 seconds
- ✓ Clean, trustworthy, 2026-ready look
- ✓ Booking CTA visible above the fold
- ✓ Built-in SEO foundation for local search

smartflowdev

What you get

Everything a modern dental site needs.

Every redesign includes these essentials — no upsells, no "enterprise tier" gatekeeping.

Mobile-first responsive

Looks perfect on phones, tablets, desktop. 60% of your visitors are on mobile — they come first.

Fast load (<2s)

Optimized images, minimal scripts, modern hosting. Google rewards fast sites with better rankings.

HTTPS + security

Free SSL certificate, HIPAA-aware contact forms, no data leaks. Your patients trust you because it's secure.

Easy content updates

You can edit text, photos, hours, and services without calling us. No technical skills required.

SEO foundation

Local schema markup, Google My Business integration, optimized titles. Show up when

Accessibility (WCAG AA)

Readable contrast, screen reader friendly, keyboard navigation. Legal compliance + wider

How it works

From kick-off to live in 7 days.

A focused week. No back-and-forth for months, no mystery timeline. You brief us Monday, your new site is live by Sunday.

DAY 1

Brief & assets

30-min kickoff call. You share logo, brand colors, photos, service list, existing content. We handle the rest.

DAY 2-5

Design + build

We design mockups, then build the live site. You see progress mid-week, no surprises at reveal.

DAY 6

Your feedback

Full preview link. You give notes — up to 3 rounds of revisions included. We iterate same-day.

DAY 7

Live on your domain

We launch to your domain (or migrate from the old host), set up analytics, and hand off.

30-day free bug fixes after launch

Source code is yours — no lock-in

3 revision rounds included in every tier

Why modernize matters

Dental practices that modernize see 30-50% more contact form submissions within 60 days.

75%

Judge credibility from the site

Visitors form an opinion about your practice in under 50ms based purely on website design.

53%

Abandon slow mobile sites

If a page takes longer than 3 seconds to load on mobile, more than half your visitors leave.

88%

Never return after bad UX

A single confusing or dated visit is usually enough for a new patient to choose a different practice.

smartflowdev

Flat pricing — no surprises

Pick your tier. Launch next week.

Flat rates. No hourly billing, no retainers, no add-on fees. What you see is what you pay — one invoice, end of the week.
