For dental practices

Ship a chatbot that feels native to your site.

Custom-built, brand-matched AI chatbot + online booking system — built end-to-end and live on your website within 5 business days.

What we do

Two things. Done properly.

We don't redesign your website. We add what's missing — without touching what already works.

AI chatbot

Trained on your practice data — services, hours, pricing, FAQs. Answers patient questions 24/7 and flags urgent cases.

- Brand-matched to your site
- Handles after-hours enquiries
- Captures every lead automatically

Online booking

Patients book in 3 clicks. Synced to your Google Calendar instantly. SMS reminders included.

- Google Calendar sync
- SMS appointment reminders
- Works on mobile (most do)

Branded | 24/7 online | Turnkey install | No dev work for you

The chatbot

Looks like your site. Built from scratch.

Not a generic Intercom widget slapped on. We match your colors, typography, tone — so it feels native. Patients don't even notice it's a chatbot at first.

Brand-matched
Pixel-perfect to your design

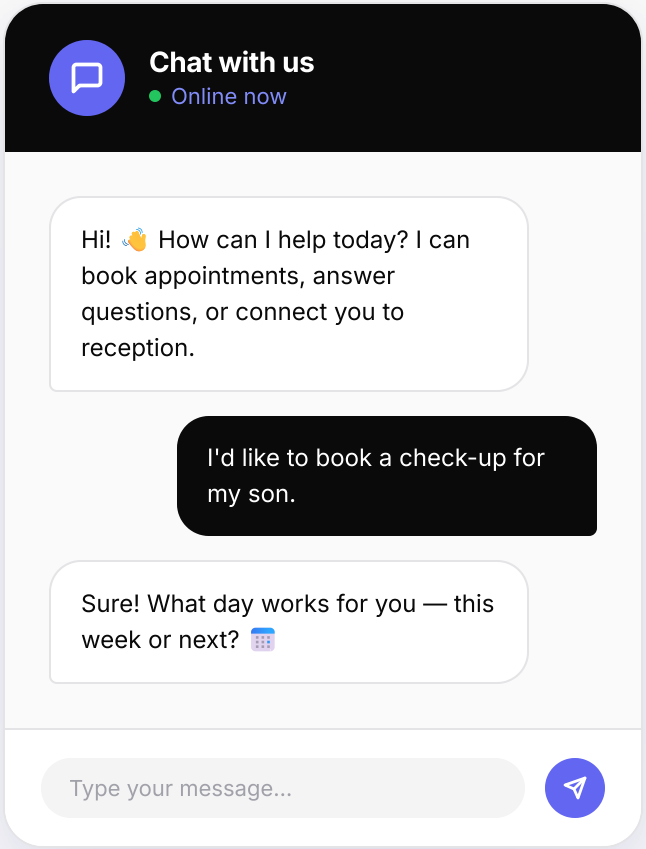
Trained on you
Services, hours, pricing, FAQs

24/7 on
Even at 2 AM

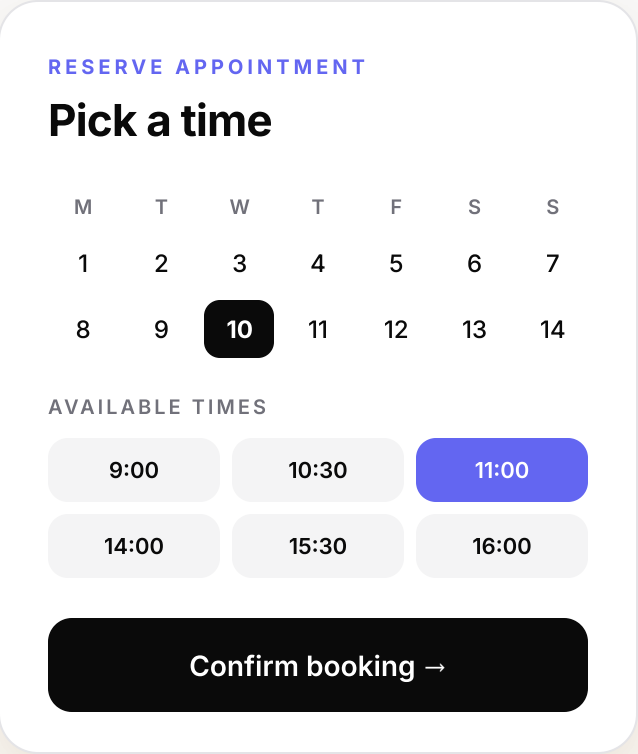
Lead capture
Every message to reception

Emergency triage
Flags urgent cases

Analytics
Tracked in Google Analytics



Online booking



3 clicks. Done.

Patients pick a date, a time, a service. Appointment lands in your Google Calendar in seconds. No phone tag, no hold music, no missed calls.

Calendar sync
Instant Google Calendar entry

SMS reminders
24h before appointment

Mobile-first
Most patients book from phone

Self-service
Reschedule without calling

Auto-confirm
Email to patient instantly

Your workflow
Integrates with your tools

The data

Patients in 2026 don't wait.

This is how people actually choose and book dental care now. Not predictions — actual behavior across tens of thousands of patient journeys.

73%

expect a reply within 1 hour

68%

prefer online booking over phone

3×

more bookings with chatbot + booking

7×

higher conversion when responding in 1h
